

Registering for a 6-month OPSGuest Wi-Fi account

Registration forms are available in both English and French for counsel and self-represented clients to request the 6-month OPSGuest Wi-Fi account. This account enables access to the OPSGuest Wi-Fi service in any of the 72 courthouses that have the service installed.

To complete an **online form** to request 6-month access, [click here](#). Requests for alternative formats or assistance completing the application form can be directed to wifi@ontario.ca.

It can take up to 72 business hours for registration to be complete. Applicants must re-apply for an account prior to or after its expiry. There will be no warning message when an account is about to expire.

Applying for OPSGuest Wi-Fi (8-hour access only)

In some cases, the OPSGuest Wi-Fi service can also be used via a sponsored 8-hour account. It is recommended that counsel use the 6-month account application process to facilitate their court matters. The 8-hour access is an alternative that should only be used on the occasion that the 6-month account credentials are not available prior to your court date. For more information about 8-hour access, go to <https://ontariocourtforms.on.ca/en/opsguest-wi-fi-forms/>.

For additional how-to instructions on connecting to the Wi-Fi service

Go to <https://ontariocourtforms.on.ca/en/opsguest-wi-fi-forms/> for access to the above-mentioned applications and for instructions on how to connect to the OPSGuest service.

When accessing your OPSGuest account in the courtroom, please ensure you are connected to the OPSGuest signal. While it may appear in some courtrooms, the Ontario Government Public Wi-Fi (OGPublic) signal is not secure and therefore not intended for use in the courtroom.

Stay tuned - more Wi-Fi information is coming your way!
